Misc. No. 82-0025 (PI)

MEMORANDUM ORDER

In its memorandum of February 6, 1984, the Court proposed a procedure for channeling to the Department of Justice requests for adjustments of LATA boundaries, the association or disassociation of Bell and Independent territories, and the assignment of individual assets. Comments in response to the Court's proposal were received from the Department of Justice, Rural Telephone Coalition, and Centel Corporation, all suggesting somewhat greater procedural protections than were provided for in the

original proposal. These objections are well taken, and the Court has therefore modified the procedures along the lines that were suggested. Accordingly, it is this 15th day of March, 1984

ORDERED:

1. On and after March 31, 1984, all requests for the adjustment of individual LATA boundaries, for the association of Independent areas to or their disassociation from LATAs, or for the reassignment of individual assets, shall be presented to the Department of Justice rather than to the Court. The party seeking the change shall identify such Operating Companies, inter-exchange carriers, and regulatory commissions as appear clearly to be affected by the requested relief (collectively "affected entities"), and it shall serve a copy of the request upon all such affected entities.

2. The Department of Justice shall consider the request formally or informally with the requesting party and all other affected entities. If the Department concurs in the request, it shall submit a proposal for an appropriate order to the Court, serving copies on the parties, all affected entities, and all others which had intervenor status as of December 31, 1983 (collectively "intervenors").

3. The proposed order submitted by the Department of Justice will be entered as the order of the Court unless an objection is filed with the Court within ten days. In the event that a party, an affected entity, or an intervenor files a statement to the effect that it is unable to make a decision without

review of supporting materials, the entry of the order will be delayed for an additional ten days while the Department makes available to such party, affected entity, or intervenor the request for relief and the necessary explanatory materials.

4. If an objection is filed within the ten or twenty-day period, as the case may be, all other parties, affected entities, and intervenors will be given the opportunity to file responses, and the Court will then make a decision on the matter.

5. If the Department does not concur in the request, it shall submit to the Court for its decision the request, its own comments, and any supporting and opposing materials it may have received.

United States District Judge
